

PLEASE READ THIS BEFORE CHECKING YOUR PLANNING CONSENT

The following are matters which must, by statute, be addressed prior to any works being enacted on the strength of the attached consent;

- 1) If this consent is issued conditionally all “prior to commencement” conditions must be formally discharged for any works to be considered lawful. Any failure in this regard will constitute a breach of Planning Control as defined by S123(1)(b) of the Town and Country Planning (Scotland) Act 1997.
- 2) The Notice required by Section 27A of the Town and Country Planning (Scotland) Act 1997, Notification of Initiation of Development, must be submitted to the Planning Authority. Any failure in this regard will constitute a breach of Planning Control as defined by S123(1)(c) of the Town and Country Planning (Scotland) Act 1997.
- 3) The Notice required by Section 27C of the Town and Country Planning (Scotland) Act 1997, Display of Notice While Development Is Carried Out, for developments belonging to the categories of national or major development or of a Class specified in Schedule 3*, must be displayed at the development site for the period of the development. Any failure in this regard will constitute a breach of Planning Control as defined by S123(1)(d) of the Town and Country Planning (Scotland) Act 1997.

In addition to the above it is also a requirement, as soon as practicable once development is complete, that a Notice is submitted to the Planning Authority under the terms of S27B of the Town and Country Planning (Scotland) Act 1997 advising of the completion of works approved. If the development is phased the terms of S27B(2) will be of relevance.

**Pro forma copies of the Notices detailed above are included in this
Decision Notice Package.**
