

CONTRACTOR SHALL CHECK ALL DIMENSIONS ON SITE

NOTES

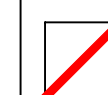

- The following conditions shall apply to the use of the drawings:
1. This drawing should be read in conjunction with all other relevant details, drawings and specifications.
 2. All dimensions are to be checked on site before the commencement of works. Any discrepancies are to be reported to the Architect immediately by verification. Figured dimensions only are to be taken from this drawing.
 3. The DWG file is issued for the purposes of coordination only and do not represent formal drawing issue and are not to be printed in a form, Formal issue of drawings is via DWG, Adobe PDF files and/or hard copies and their associated information issue documents.
 4. Note that if a call has been taken to the content of DWG files and their content, be well understood that you make due dimensional checks against the DWG file information. Any errors have to be reported to HCC Consulting immediately.
 5. All levels are shown in metres above Ordnance Datum (as AOD).
- In the event of any contradiction between this drawing and the specification, then the contractor shall seek clarification from the landscape architect before proceeding.
6. HCC Consulting undertakes agencies, where the contractor is required to verify the location and depth of all services at the site after the start of construction. It is the responsibility of the contractor to ensure that they have sufficient time and opportunity prior to commencement of work and to take any precautions necessary when working in the vicinity of depths of all services.

SIGNIFICANT HEALTH AND SAFETY HAZARD

The following are considered to be significant risks relevant to this drawing, which could not be fully mitigated or removed through design. Further possible control measures have been identified within the Design Risk Assessments which may help to mitigate these and other identified risks, both during the construction / maintenance process;

1. deep excavations - collapse
2. deep excavations - working at height/depth, fall & falling objects
3. buried services
4. possible soil contaminants
